NAME OF THE DEPARTMENT : Department of Humanities

NAME OF THE PROGRAMME : BA-III (Sem-5)

NAME OF COURSE : Algebra - I

NAME OF FACULTY : Asst.Prof. Kirandeep Kaur

C.O. No.	Description of Course Outcome	Methods of Assessment
CO-1	Acquire the knowledge of a matrix, basic operations, rank and determinant of a matrix	Authentic problem solving, revision, assignments.
CO-2	Recognize the concepts of the terms span, linear independence, basis, dimension, and apply these concepts to various vector spaces and subspaces .	Authentic problem solving, assignments, class tests.

CO-3	Understand the concept of linear transformations and their properties and Use the definition and properties of linear transformations and matrices of linear transformations and change of basis, including kernel, range and isomorphism	Authentic problem solving, black board test, assignments.
CO-4	Introduce the new terms Basis and Dimension . Acquire the knowledge of ordered basis	Authentic problem solving, assignments, class tests.
CO-5	Determine eigen spaces, as well as the geometric and the algebraic multiplicities of an eigen value and apply the basic diagonalization result	Authentic problem solving, class test, assignments.
CO-6	Apply Cayley- Hamilton Theorem to problems for finding the inverse of a matrix and higher powers of matrices without using routine methods	Authentic problem solving, assignments, class tests.
